

About the Workshop

This three-day workshop is designed to provide faculty members and research scholars with a comprehensive understanding of Text Mining.

Conducted in a hybrid mode, this workshop is accessible to both in-person and online participants, ensuring flexibility and inclusivity.

Workshop Highlights

- Theoretical and Practical Aspects of Text Mining
- Data Preprocessing and Feature Engineering
- Sentiment Analysis and Opinion Mining
- Hands-on Training with Advanced Software and Analytical Tool
- Case Studies and Real-World Applications in Research
