Resilient India - Disaster Free India

অসম বিশ্ববিদ্যালয়
ASSAM UNIVERSITY

**Online Training Programme on
Child Centric Disaster Risk Reduction (CCDRR)**

24 - 26 August, 2022

Time: 11:00 AM- 1:00 PM

Jointly Organized by:
National Institute of Disaster Management, New Delhi
&
Department of Geography, School of Earth Sciences
Assam University, Diphu Campus (A Central University)
Karbi Anglong, Assam

BACKGROUND

Disasters threaten the lives, constitutional rights and needs of the children worldwide. In past three decades India have faced devastating disasters such as Latur Earthquake (1993), Odisha Super Cyclone (1999), Bhuj Earthquake (2001), Indian Tsunami (2004), Jammu & Kashmir Earthquake (2005), Urban Flood in Mumbai (2005), Bihar Floods (2008), Uttarakhand Floods (2013), Cyclone Phailin (2013), Srinagar Flood (2014), Chennai Flood (2015), Kerala Flood (2018 & 2019), Cyclone Fani (2019), Cyclone Amphan (2020), Maharashtra floods (2021), Tamil Nadu floods (2021) and COVID-19 (2020-21).

Droughts hits Andhra Pradesh, Gujarat, Karnataka, Maharashtra, Rajasthan, Tamilnadu and Telangana. Bihar, Jharkhand and parts of North East are also drought prone. These states are home to nearly 500 million people, almost 40% of the country's population.

Droughts are slow onset disasters, adversely affecting women and children. Karnataka (16 districts) and Andhra Pradesh (4 districts) experienced at least 10 droughts between 2001-2015. During these emergencies, children are especially vulnerable to diseases, malnutrition, and violence and trafficking. Measles, diarrhoea, acute respiratory infections, malaria and malnutrition are the major killers of children during humanitarian crises. In future, vulnerability of children is expected to increase as the intensity and frequency of natural disasters rises.

Keeping in view the increasing vulnerability of children from climate change and natural disasters, National Institute of Disaster Management (NIDM), Ministry of Home Affairs, Government of India has established

“**Child Centric Disaster Risk Reduction (CCDRR) Centre**” to mainstream child centric DRR activities through Training, Research, Advocacy and Consultancy. The present training on CCDRR is organised jointly by NIDM and World Vision India.

AIM OF TRAINING

This **3 Days Online orientation Training Programme on Child Centric Disaster Risk Reduction** is intended for officials of various Government departments, Civil Society organisations, NGOs, Academia and students to help build their knowledge, skills and perspectives towards child centric disaster risk reduction. This will help various stakeholders understand and prepare for risk informed planning, sectoral readiness and preparedness for emergencies so as children are not deprived of basic amenities.

OBJECTIVES

At the end of this course, participants will be able to:

- Explain the basic concepts of Disaster Risk Management
- Explain the impacts of disaster on children
- Describe the concept of child centric disaster risk reduction list out the CCDRR activities.
- Draft and apply strategies for school safety with the engagement of children
- Explain the Disaster impact on mental health of the Children
- Explain the process of mainstreaming child-centric risk management

COURSE MODULE

This Course has two modules and contents of the course would touch upon the following aspects, to achieve the objectives:

Module-I: Disaster and its impact on children

Session -1: Basic Concepts of Disaster Risk Management
