In view of the communication from
PS to VC dated 5/12/16, 6:53 PM, the department
appreciates the need for quality research in
higher education. However, since higher education
is a compendium of several fields, specializations
and areas, to select the "best" is a difficult
exercise. Secondly, the letter does not spell out
whether the paper should be selected from
the scholars, PG students or Faculty members.
Further, on what criteria the selection should
be based is not clear from the letter. Moreover,
one day is too short a time to do justice
to the job in the earnest.
