Work Completion Certificate

To whom it may concern

Name of Work/ Project: Implementation of Campus Connect & Wi-Fi facility at Assam University, Silchar (AUS).

Work Order Number: AUS/CC/2014/62/2125

This is to certify that Railtel Corporation of India Limited has successfully completed Campus Wi-Fi network at Assam University, Silchar.

The work is completed on 13th July 2017 successfully. The same would be treated as billing start date.

For Railtel Corporation of India Limited

For Assam University, Silchar (AUS)

NKN Project
Assam University, Silchar

1 Overview

1.1 Introduction

As per the PO guideline Railtel Corporation has to provide Wi-Fi services for Students, Teaching & Non-Teaching staff at Hotspots cover areas that are frequently used by students & Academicians, such as Academic Block, Library, Hostels, Canteen etc. for accessing the Campus Network of Assam University, Silchar (AUS). Comprising of two campus i.e Silchar Campus and Diphu Campus

The design philosophy and features of the Hotspot/Wi-Fi enabled Campus Networking at AUS which is based on Modular Network design with Tiered hierarchical architecture. The Wireless Infrastructure, providing the Hotspots / access, is based on a centralized controller based architecture providing centralized management. The Wireless Access Points can be provisioned for the end user access. Indoor and Outdoor Wireless Access Points (WAPs) have been installed & commissioned depending upon the PO condition of respective university campus.

Internet connectivity, Public IP address & bandwidth provided by the University via National Knowledge Network (NKN) at Silchar Campus. University plans to extend NKN Connectivity to Diphu Campus on Point to point Leased Media hired by them.

2 Architecture of AUS Wi-Fi Deployment

2.1 Architecture Overview

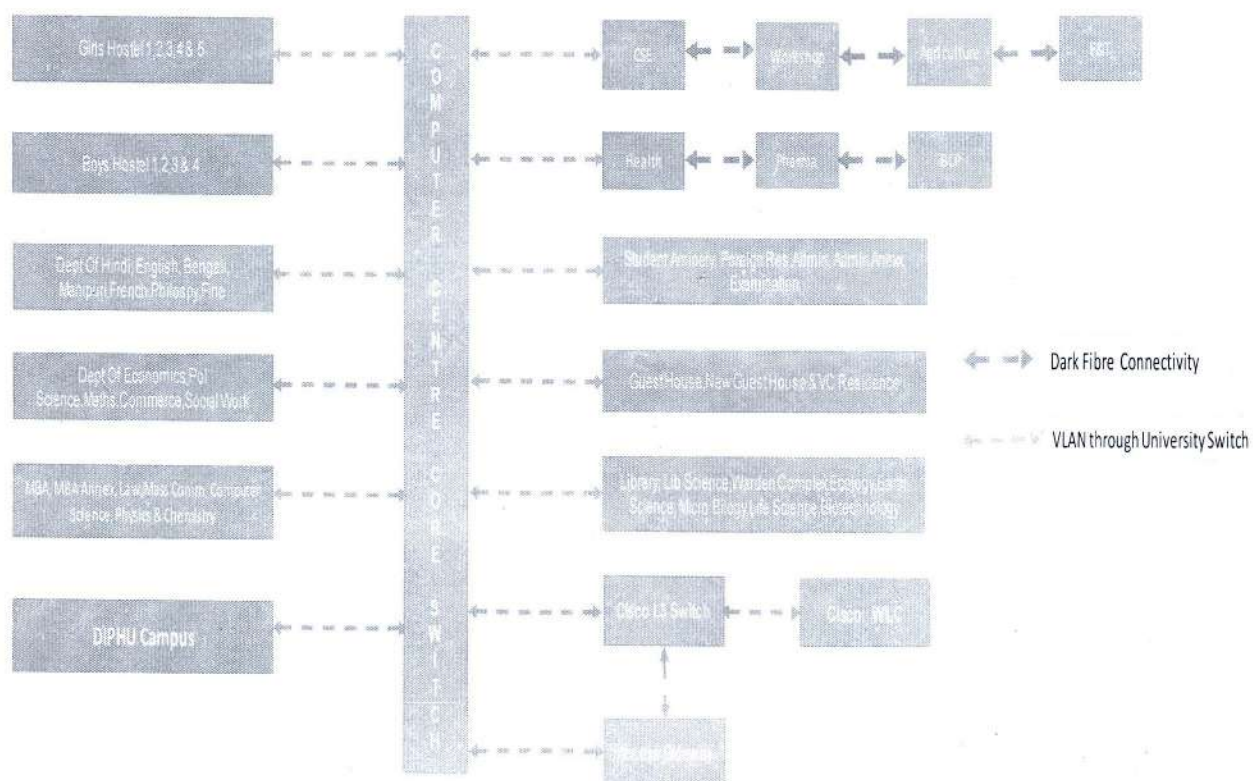

Below is the broad-level architecture of deployed Campus Wi-Fi network installed by Railtel. It contains a central AAA / portal system installed at Railtel Data Center which will be catering to all the Assam University users. This AAA is completely secure and connected to the campus network over secure internet cloud. Local Campus network contains Indoor and Outdoor Access Points for Coverage, POE switches for physical interconnection of Access points, UPS for switching backup.

Access Gateway BRAS and a wireless controller has been installed at Silchar campus .

Authentication traffic of Campus users is designed to come to and users will be authenticated from AAA installed at Railtel Data Center. AAA portal will be opening at first login of the customer and will release an authentication OTP/Password for the user via SMS on his registered mobile number. Registered mobile number will be uploaded in the AAA user data base as per the data shared by university.

Post authentication, user will be able to change his access password by means of self-help page of the portal. Through the secure username and password based authentication process, campus users will be able to access Internet through the system which is integrated with NKN internet gateway bandwidth already available at the campus.

4 Inventory Details

4.1 Summary Of Installed Equipment

Summary of equipment installed in Campus Wi-Fi project is as given below:-

Silchar Campus

S. No.	Item Name	UoM	Make	Network Type	Quantity
1	Indoor Access Point	NOS	Cisco (AIR-CAP702I-N-K9)	Access	345
2	Outdoor AP	NOS	Cisco	Access	7
3	PoE Switch (8/24 Port)	NOS	TP Link	Access	75
4	1000/ 600 VA OFFLINE UPS	NOS	BPE/Microtek	Access	66
5	WLC	NOS	Cisco 5508	Core	1
6	L3 Switch/Router at Computer Centre	NOS	Cisco 4948E	Core	1
7	Access Gateway	NOS	HP Server and Inventum software	Core	1

345 + 1 = 346
17/7/14

Dipdu Campus

S. No.	Item Name	UoM	Make	Network Type	Quantity
1	Indoor Access Point	NOS	Cisco (AIR-CAP702I-N-K9)	Access	49
2	Outdoor AP	NOS	Cisco	Access	0
3	PoE Switch (8/24 Port)	NOS	TP Link	Access	13
4	1000/ 600 VA OFFLINE UPS	NOS	BPE/Microtek	Access	10
