Applications are invited for one position of **Research Associate** and one position of **Project Associate** in a **DBT funded project** titled “**Designing a secondary resistance based biomarker for detection of antimicrobial resistance (AMR) in multi drug resistant bacteria**” for a period of three years. The post is purely temporary and coterminous with the project.

Eligibility: For Research Associate, candidate should hold a Ph.D degree in Microbiology/Biotechnology/Life Science and a good academic record. The applicants should be below the age of 40 years (45 years in case of women). The candidates with research experience in antimicrobial resistance evidenced from published papers in standard referred journals will be preferred. For Project Associate, candidate should be M.Sc. in Microbiology/ Biotechnology/Life Science. Candidate having Knowledge of Microbiological, molecular biological techniques in relation to antibiotic resistance and knowledge of Bioinformatics will be preferred. Fellowship will be as per DBT, Govt. of India guidelines.

Applicants may walk in for the interview on **04.10.2023** in the department of Microbiology **at 12 Noon** with 3 copies of bio-data and supporting documents in original. No TA/DA will be paid for attending interview.
