ASSAM UNIVERSITY: AN INTRODUCTION

Assam University, Silchar, is a Central University established by an Act of the Indian Parliament (Act XXIII of 1989), and came into existence in 1994. Situated in the Barak Valley of southern Assam, the University is nestled in a sprawling 600-acre campus at Dargakona, about 23 kms. from Silchar town. In 2007, Assam University opened a satellite campus at Diphu in the Karbi Anglong Hills District of Assam, thereby making quality higher education accessible to a wider section of society. With students' strength of more than 4000 in the Silchar campus and 400 in Diphu campus, the University is a veritable melting pot of diverse communities, ideas and creativity. Apart from the two campuses of the University, there are 58 affiliated and permitted colleges in the five districts of south Assam, which together constitute the jurisdiction of Assam University and there are more than 20,000 students enrolled in the affiliated colleges.

Since 1994, Assam University has expanded both in size and reputation. Today, there are 34 postgraduate departments under 16 Schools of study in the Silchar campus and 08 departments in Diphu campus, offering a wide range of programmes geared towards equipping students and research scholars with knowledge, skills, experience and confidence, the benefits of which they can reap well into the future. Besides, there are several Centres of Study in the University dedicated to research of high quality. Recently, the University has developed a strategy for enhancing the range of pedagogic uses of technology. As part of this strategy, the University is in the process of gradually turning all its classrooms into state-of-the-art ones enabling teachers to teach using a wide variety of media. There's no gainsaying that in the last nineteen years of its relentless pursuit of academic excellence, Assam University has made giant strides in providing better academic atmosphere and improved infrastructural facilities.

THE LOGO

The Logo has a book at the base. Knowledge in the form of flame of light is emerging from the book to lead to modern technology to ensure human development. In the background, there are hills and plains representing the Barak Valley and the hills districts. All the elements are ultimately put in a wheel of progress, so that the University acts as an instrument of change and development for the area within its jurisdiction. The promise of progress is represented by the Rising Sun which is shown as emerging across the symbol of technological growth. 'Assam University, Silchar' and 'Pratyayabodhakritirupapattaye' (in Devanagari) are inscribed in the Logo.

OUR MOTTO

The Motto of the university is "Pratyayabodhakritirupapattaye" meaning 'Conviction, Confidence and Creativity'.

OBJECTS OF THE UNIVERSITY

The objects of the university has been laid down in the Act as follows :

From the Desk of the Vice Chancellor

The XIIth plan allocation for the university has been intimated recently. Considering the enormity of commitments and plans for the development of the campuses both at Silchar and Diphu, the allocation made by the University Grants Commission is far below our expectation. Perhaps time has come for us to be more prudent in our priorities and financial management more than ever before. However, there is no need to despair, as we are sure to overcome the initial issues of allocations to different sectors of development, cost reduction; exercise will be implemented without affecting the quality of education imparted. Since the expenditure of the Diphu campus is also merged with the mainstream grant, the financial position of the university has become quite sensitive. The problem has compounded because of discontinuation of separate grant for non-NET fellowship.

It does not mean that the developmental proposals will be neglected. The department of Indian Comparative Literature will be set up without investing much in terms of both faculty and infrastructure. Proposals for opening other new Departments are pending with the UGC. The Diphu Campus has now several permanent buildings, inaugurated recently by the Hon'ble Governor of Assam and the Chief Rector of Assam University. The campus will definitely look better in the days to come. What we need now is to focus on the quality of education and service to our stakeholders. It is imperative that now we adopt the concept of total quality management (TQM) so that all sections of the university participate in it and also get its benefits. There lies the responsibility of teachers of the university. The research front has shown signs of improvement and I do believe, this sector will show further improvements. The University has entered into a partnership with the European Union, which will facilitate more collaborative research and exchange of students.

The university has taken to the reformative path and I do hope that the fruits of hard work and commitment will show results in the next couple of years. The ultimate aim of the

university is to be responsible to the community in its vicinity. A good number of departments have involved themselves in community service, supplementing the objective of the university. The Assam University Extension and Outreach Society is also supporting our community service initiatives- several seminars and conference, national and international as well, be held during the year.

The annual report of 2012-13 is a reflection of what was achieved during the year. The major areas of focus would be streaming research fellowship, recruitment of quality teachers and revision of curricula in various disciplines to meet the ever-changing global educational scenario. Young teachers in particular have shown eagerness to adopt innovative practices, both in teaching and research. Higher number of teachers are being given financial assistance to attend seminars, conferences and workshops this year. Hopefully, the number will increase next academic year. The year of 2012-13 also witnessed a couple of interesting programmes like the Foundation Day Lecture and the workshop on violence against women and ethnic minorities registered a good response. Eminent resource persons took an active part in the workshop which proved likely.

The year of 2012-13 has been eventful. The future should beckon us with laurels and appreciation, when we achieve real progress.

CHAPTER THREE

Departmental Activities

ABANINDRANATH TAGORE SCHOOL OF CREATIVE ARTS & COMMUNICATION STUDIES

1. DEPARTMENT OF MASS COMMUNICATION

Year of Establishment : 1996
Head of the Department : Prof. G.P. Pandey

Research & Development Activities:

Department has been able to bring virtually every aspect of communication discipline under scanner for the purpose of research. It has been an earnest endeavour on the part of the department to unearth the opaque areas of the field of communication. The teachers in the department are alive to the problems of applicability of academic research and are trying to break new grounds in an effort to bridge the gulf between academia and the outside world in a developing society. The department harbours the hope of developing an Indian paradigm of communication research because it would be able to put the department not only on the international map but also would impart it a distinct place among the Indian universities.

The department has a policy of engaging the research scholars in meaningful activities and has already been able to employ almost 30% of its research scholars as permanent employees. The department provides a healthy library facility to its research scholars.

The department has decided to use its resources for dissemination of modern scientific knowledge to rural people through the use of traditional medium of communication and is currently holding discussion with different agencies like National Rural Health Mission, Sarba Sikshya Aviyaan Directorate to decide on the modalities of cooperation.

The department has in the last one and half year actively started the practice of bringing in professionals and internationally reputed professors from foreign universities to provide the students with an understanding of the humdrums of outside world. New projects are coming frequently and students from different parts of the country as well as abroad are turning up to enroll in Doctoral programme.

22. DEPARTMENT OF HINDI

Year of Establishment : 1998

Head of the Department : Dr. Krishna Mohan Jha

Research & Development Activities:

The Department of Hindi was established in the transit accommodation in 1998 with Masters Degree Programme in Hindi. The Department has been offering PhD Programmes since 2001. The first batch of M. Phil course started in January 2007.

The department is situated in a university which has unique feature of being in a linguistically and culturally diverse milieu. Assam state has its neighbours all the north eastern provinces (Manipur, Mizoram, Tripura, Meghalaya, Nagaland and Arunachal Pradesh) apart from Bangladesh. That's why linguistic and cultural diversity is its defining feature. Barak Valley has Bangla as its main language. After that Manipuri, Hindi and other languages follow. Dimasa, Khasi, Hamar, Kuki, Naga are the tribal languages of the area. Tea garden labourers are Santhal, Munda, Oraon and Oriya speaking apart from Bhojpuri (A dialect of Hindi) speaking population.

Students of the Department are from all these different linguistic backgrounds. Hindi as national

and official language has a definite role to play in this remote area.

Before opening of Hindi department in Assam University there was no system of Hindi teaching in this region at higher level. At present the university is not only running P.G level courses in Hindi but the department is also working as nodal centre in Hindi teaching in affiliated colleges. Teaching and research in Hindi at university level in itself is an achievement in this remote region of North east India (i.e. Barak valley). This has not only helped to integrate the people of this region with wider Hindi linguistic and literary scenario but it has also helped in establishing dialogue between Hindi and different societies, their culture, language and literature which is significant for national unity and integrity while developing knowledge. In this background the thrust area of the department is as follows-

A) Contemporary Hindi Literature and its interaction with other Indian Languages and their Literature. B) Socio-linguistics.

C) Nineteenth century Hindi literature and Renaissance.
