About : The Incubation Centre

The Incubation Centre of Assam University, Silchar campus is dedicated to discover the entrepreneurs stashed inside the students of the University. The Incubation centre connects students with solid entrepreneurial skills and helps them to get exposed to an array of networking, contacts, mentorship, workshops, skill development, and so forth. The Incubation centre of Assam University believes in a very subtle concept of “Idea” and “Innovation” We believe, when there is an idea there is innovation and where innovation and idea thrives, there thrives the entrepreneur.

About : Commencez 1.0

Every great thing has a humble beginning. The Incubation Centre of Assam University has been set up for innovation and entrepreneurship to enable the students to get firsthand experience in entrepreneurship, promote innovation-driven activities in the University and provide a comprehensive and integrated range of support including mentoring, training programs, networking and an array of other benefits. As a part of its vision, the Incubation Centre is organizing its first Commencez 1.0. A One-day thought-provoking event on World Entrepreneurs' Day. The event comprises people from the Startup world who are changing the world in their way. This year we are giving special emphasis on women entrepreneurs who have broken the barrier of societal rules and lived their dreams and changed society and its perception with their sheer hard work, dedication and vision. The event will also accommodate startups from across North East India to pitch their ideas in front of an expert panellist who happens to be entrepreneurs and who bridged the gap in the society with their ideas & innovations.

Bartalipi
