India is one of the fastest-growing economies, and knowledge creation and research are essential to sustaining this growth. The National Education Policy (NEP) 2020 emphasizes the importance of multidisciplinary education and flexible degree structures to enhance higher education in the country.

In line with these changes, Higher Education Institutions (HEIs) are encouraged to offer a range of Master's programs and adapt to new guidelines, such as the Learning Outcomes-based Curriculum Framework (LOCF) and the Choice Based Credit System (CBCS).

To support the implementation of NEP 2020, a Faculty Development Program (FDP) is designed to help educators understand the objectives of the policy and incorporate these insights into curricula and teaching methods, thereby improving the quality of education. The goal is to empower educators and strengthen academic standards by making higher education more flexible, accessible, and responsive to the evolving needs of students.
